LLDPE

Product description				
material	>LLDPE<			
colour	white			
UL				
Application	Film materials, food packaging bags, container liner, coating, etc.			
Material properties	Non smelly, tasteless, non-toxic particles, the relative density of 0.918-0.939, compared with LDPE has high strength, good toughness, rigidity, heat resistance, cold resistance			
material shape	Granular			
forming method	Blow molding			
mechanical	Conditions	Testing standards	data	unit
specific gravity		ASTM D792	0.918-0.922	g/cm ³
Melting flow index	°CKg	ASTM D570	1.70-2.30	g/10min
thermal	Conditions	Testing standards	data	unit
Other properties	Conditions	Testing standards	data	unit
grainy appearance	Of turbidity	SH/T 1541	≤ 10	a/kg
	Silk hair	SH/T 1541	≤ 20	a/kg
	Big grain and Small grain	SH/T 1541	≤ 10	a/kg
fish-eye	0.8mm		2.00	a/1520cm2
fish-eye	0.4mm		15	a/1520cm2
